INTENTION

State your intention for what you would like to achieve over the next 12 weeks.

Key #1 - Clarity of Vision, Purpose & Direction

Any great achievement is born from a clear vision and coupled with a sense of purpose and certainty of direction.

Write down your big vision for your future below. This is not constrained by time, but by your ability to allow your imagine to run free. What do you really want to achieve in your life?

Key #2 - Focus and Attitude

Your goals and dreams are waiting for you, but you must focus on them relentlessly, and have an attitude of 'No Matter What' in order to achieve them. Challenges are inevitable, but with the right attitude, you can overcome anything that comes your way.

Write down some simple shifts you can make in your attitude that will help you to achieve your goals and dreams faster.

Key #3 - Leverage Your Superpowers

You were born an infinitely powerful being, capable of achieving anything you put your mind to. You have gifts, talents, knowledge and skills that no one else on the planet has. Release yourself from the grip of believing in your mediocrity, leverage your superpowers, and **ANYTHING IS POSSIBLE**.

Write down a list of the things you do naturally well that people compliment you on. Things you love to do that come easily to you. These are things you have unconscious competence in. They are part of your core genius.

Key #4 - Reclaim Your Power

Your subconscious success blueprint will be the difference in realising your goals and living life in the sweet spot of success.

Write down fears and doubts that are holding you back, slowing you down, and stopping you from being all you can be.

Key #5 - Consistent Inspired Action

With all the previous keys in place, consistent daily action toward your vision, for as long as it takes, will inevitably get you to your destination. If you're feeling any fear, doubt or uncertainty, taking positive action toward your goals will help to build your faith, belief and confidence. But just any action won't cut it, it must be **INSPIRED ACTION!**

Write down several actions you can take in the next couple of days to get your closer to your goals and dreams.

BELIEFS

Our beliefs determine how we feel, think, behave and ultimately the results we achieve. Our beliefs shape the events and circumstances in our lives.

Some beliefs support us in the achievement of our goals and dreams, while others sabotage us. It's the sabotaging beliefs we need to identify and release emotional attachment to if we want to change the results we're getting.

Types of Beliefs (In order from least impactful to most impactful)

- Specific Beliefs - About a particular person / entity / thing
- Global Beliefs - A collective group or entity
- Rules Beliefs - Relationships and behaviour in specific circumstances
- Values Beliefs - What's most important to you in your life
- Identity beliefs - Beliefs about yourself - (I am / I am not)
'You are never going to behave consistently in a matter which is inconsistent with how you define yourself.' Zig Ziglar

Identifying Limiting Beliefs

What do I want?

How would I like it to be?

Where did I learn this belief? *Significant emotional event / learning experience)*

Where have I felt this before in my life?

What significant events support that belief?

What sort of person would you ultimately like to become?

What belief prevents me from doing / being / having this now?

SELF-CONFIDENCE

Where in your life do you feel you lack confidence / you would like more confidence?

How is your lack of confidence affecting you / your outcomes?

How would having more confidence impact this area of your life / what would you do differently?

What action would you take if you had complete confidence and belief in yourself?

What are you afraid of that's stopping you from being more confident and taking action?

Goal Setting

Clear, well defined goals that support your vision for your future are essential if you're going to achieve success.

Some people like to plan everything out step by step. Others prefer to focus on their vision and take the next step, allowing the path to unfold along the way.

SMART goals are effective for short term goals.

Specific
Measurable
Achievable
Realistic
Time-based

Your long term vision and goals must be HUGE if you want to unleash your greatness, as this will inspire you to grow and get out of your comfort zone, which is where the magic starts.

Step 1: Dream Huge

Step 2: Own Your Brilliance

Step 3: Get Out Of Your Own Way

Most people overestimate what they can achieve in the short term and underestimate what they're capable of achieving in the long term.

What's your compelling 'WHY'?

Your vision must be compelling enough to overcome any challenges that come your way.

Whilst it's important it includes what you want for yourself, by identifying a cause that you feel passionate about and making that your focus, you're not only more likely to have the right 'whatever it takes' kind of attitude, you'll dig deeper and be unstoppable in the face of adversity.

What breaks your heart?

What's the difference you want to make?

What's the legacy you want to leave?

Who were you born to be?

What were you born to do?

Who were you born to serve?

What are you most passionate about? If you could do anything for the next 50 years without getting paid and never get tired of it, what would that be?

What's your unconscious competence?

Decree of Abundance

By the light of God that I am
 By the love of God that I am
 By the power of God that I am
 By the heart of God that I am
 I decree

I dwell in the midst of infinite abundance
 The abundance of God is my infinite source
 The river of life and abundance never stops flowing
 It flows through me into lavish expression
 Good comes to me through unexpected avenues
 And God works in a myriad of ways to bless me.

I now open my mind and my heart to receive all my good
 Nothing is too good to be true
 Nothing is too wonderful to happen
 No miracle is too big for God to manifest
 With God as my source, nothing amazes me.

I am not burdened by my thoughts of past or future
 One is gone and the other is yet to come

By the power of my belief
 Coupled with my purposeful, fearless actions
 And my deep rapport with God
 My future is created and my abundance made manifest.
 I ask and accept that I am lifted in this and every moment into the highest
 truth
 My mind is quiet

From this day forward I give freely and fearlessly into life
 And life gives back to me with magnificent increase
 As I am a beloved child of God
 I am deserving of all the wonderful things God has in store for me
 Blessings come in expected and unexpected ways
 And God provides for me in wondrous ways.

I am indeed loved unconditionally by God
 I am indeed grateful
 And I let it be so
 It is so.

Visualisation for Wealth Creation

Visualisation is a powerful tool for creating your future and manifesting what you desire.

The subconscious mind does not understand the difference between 'fantasy' and 'reality', and it's language is pictures and feelings.

When you present it with a picture, real or imagined, and you add strong emotions, your subconscious mind will go about creating that reality for you.

In order to create the reality you want, construct a strong picture in your mind and focus on it, with emotion, often. Your subconscious will go about creating situations, circumstance and events that will support this new vision for your future.

This is why vision boards are such a powerful tool.
